Summary

A resilient and highly motivated B.Tech Information Technology student (8.82 SGPA) with proven leadership and technical acumen. Selected as a **Google Student Ambassador** for demonstrating passion for AI and community leadership. Chosen for a competitive **IBM SkillsBuild Front-End Development Internship**, highlighting strong foundational web skills. Eager to leverage this unique combination of experience to solve real-world problems and contribute to a challenging internship or freelance role.

Leadership & Professional Experience

Google Student Ambassador | **Google** | **Kolkata, WB**

August 2025 – December 2025

- Selected through a highly competitive process as one of the most promising student leaders in the country to represent Google Gemini on campus.
- Tasked with leading AI workshops, organizing tech events, and driving conversations around AI innovation among peers.
- Responsible for gathering and sharing valuable community feedback to help shape the future of Google's AI tools.

Front-End Development Intern | **AICTE Edunet - IBM SkillsBuild Program** | **Remote**

August 2025 – October 2025

- Accepted into a 6-week intensive internship focused on modern Front-End Web Development practices.
- Gaining hands-on experience by building a real-world project under the guidance of an industry mentor.
- Mastering core technical and professional skills through the IBM SkillsBuild e-learning platform.

Technical Projects

Personal Portfolio Website | **HTML5, CSS3, JavaScript** | github.com/saviour2/portfolio

- Developed a fully responsive personal portfolio to showcase skills and projects, featuring a clean UI and personalized theme.
- Implemented the website using GSAP library for animated backgrounds, contents and layout of the page.

E-Commerce Application | **Java, JavaFX, MySQL** | github.com/saviour2/minipro

- Built a functional desktop e-commerce application with distinct portals for customers and sellers.
- Implemented a MySQL database to manage user authentication, product listings, wishlists, and cart data.
